

## Bee Buffet Instructions

By Revolutionary Hives

1. The Bee Buffet is designed for use with a large mouth jar or a small mouth jar. For proper orientation of the small mouth jar there are inner support ridges. The small mouth jar band ring rests on these support ridges.
2. For best results no heavier than 1:1 sugar syrup should be used and the station should be set up on a fairly level surface.
3. The Bee Buffet can be used for open feeding as well as hive top feeding.
4. For hive top feeding the Bee Buffet rests on the inner cover with the bee access opening over the 1.25" X 3.5" hole in the inner cover. The patty cup is placed centered into the bee access opening.

1. Large Mouth Jar Band
2. Large Mouth Jar Lid w/hole
3. Small Mouth Jar Band
4. Small Mouth Jar Lid w/hole
5. Patty Cup
6. Bee Buffet Lid
